Where values of uncertainty of measurement are given, these are expressed at the 95% confidence level unless otherwise stated.

A laboratory accredited to ISO/IEC 17025:2015 is required to publish its “Decision Rule” in respect of the application of uncertainty of measurement to the results of tests. The SGS United Kingdom Limited (formerly SGS Baseefa Ltd.) Decision Rule is published in document BAS-PS-026, available from the SGS Baseefa web site. In summary: Where an indicated value lies close to a limit value, such that the uncertainty of measurement is greater than the difference between the two, it is not possible to state unequivocally that either compliance or non-compliance has been demonstrated. The SGS United Kingdom Limited (formerly SGS Baseefa Ltd.) Decision Rule is to take the indicated value as the true value, based on the principle of “Shared Risk”.

This document is issued by the Company subject to its General Conditions for Certification Services accessible at <http://www.sgs.com/en/Terms-and-Conditions.aspx> and the Supplementary Terms and Conditions accessible at <http://www.sgs.com/SGSBaseefa/Terms-and-Conditions.aspx>. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein. Any holder of this document is advised that information contained herein reflects the Company’s findings at the time of its intervention only and within the limits of Client’s instructions, if any. It does not necessarily indicate that the equipment may be used in particular industries or circumstances. The Company’s sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be reproduced except in full without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.
